The receipts on the Norwich and Worcester Road for the first ten days in October exceed the same ten days last year \$2000. The damage done by the late stead of twenty to thirty thousand dollars, does not exceed one thousand.

Freights remain very active at full prices. To Liverpool there are engagements at 3s 3d and and 11d for Flour and Grain. The inquiry for vessels much exceeds the supply. Several ships were taken up for outports at round sums. The shipping interest is now in a most prosperous condition, and some ships very nearly pay for themselves with one or two cargoes; and the potato rot and short crops have more to do with this result than all the Free Trade Sir Robert ever dreamt of.

The New-Orleans Times of the 8th says. "No change has taken place in the Money Market within the past few days. Capital continues abundant, and short leans are readily negotiated in the street at 829 per ct. discount, but, as we have before observed, there is starcely any paper offering. Investments for along period are not much in favor at present, as parties prefer having their means more under control, until the financial attains of the Government shall be more explicitly defined. U.S. Treasury Notes have been in demand since our last, at 4 #2 per cent, discount."

FLOUR AND MEAL.—There was not much done to-day, and the market is without particular change.
